-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 49-53 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fernie et al. (US 6,179,076 B1) and in further view of Perry (US 5,366,036 A).

Fernie et al. discloses a pair of separately controllable drive wheels 14 with spring biased sleeve coupling 70 and weight-bearing casters 16 on front and rear legs 60, 64, wherein said drive wheels engage the support surface when a load is placed on the frame 28, as shown in figures 1-4. Fernie et al. does not disclose vertical supports with supporting arms and handles or grips. Perry does disclose a walker/wheelchair comprising a pair of vertical supports 40, longitudinal arms 52 with handles 54 forming a generally U-shaped upper frame, a seat 126 with back 196, load platform 48, and motor controller 240, as shown in figures 1-10. It would have been obvious to one having ordinary skill in the art at the time of the invention to have provided the wheelchair of Fernie et al. with the upper frame of Perry in order to allow a user to sit or walk with motor assist.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 49-53 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
